## Friday 19<sup>th</sup> August 2022 - 'Bulls with a Difference Sale'

All sale bulls listed below have been running in two groups since weaning.....

Spring 'R' bull group – lots 1 to 53 & Autumn 'S' bull group – lots 54 to 113.

- Their Carcase Ultrasound Scanning information was collected 4<sup>th</sup> August by David Reid. Age, Weights and Hip Heights were taken at the same time with their ADG being adjusted whole of life.
- Scrotal Size was measured when bulls were Breeding Soundness Examined by Ced Wise on 24<sup>th</sup> July.

Lot	Ident	Age mths	Weight Kg	ADG Kg/day	Frame Score	Scrotal Size cm.	EMA Sq cm.	Rump P8 Fat	RibFat mm	IMF %
